

Your independent aerospace safety & reliability specialists

- ▲ S&R can support the development of new, innovative products and services – provided it is done **intelligently**
- ▲ Our **smart** S&R engineering approach ensures innovative products can be certified **efficiently**:
 - ▲ No over-design ✓
 - ▲ No over-testing ✓
 - ▲ No over-maintenance ✓
- ▲ Our S&R **experience** is supporting the development of new branches in aerospace. For example:
 - ▲ Next generation aircraft powerplants
 - ▲ UAV's / RPAS's
 - ▲ Commercial human spaceflight
 - ▲ High Altitude Platforms
